## STREAMS ARE STILL ON RAGE ---- MUCH DAMAGE

**Santa Fe in Trouble.**

Pauls Valley, I. T., Aug. 7.—One of the heaviest rains ever witnessed in this section fell here last night. It fell in torrents almost all night and all streams are greatly swollen.

The Santa Fe track is out between here and Purcell and also above Purcell.

The Santa Fe reservoir at Byars, about eighteen miles east of here which covered about 170 acres broke loose this morning and inundated the country adjacent. About a mile and a half of the Santa Fe track this side of Byars is gone, and it will probably be a week before trains are running on that branch.

The breaking of the Byars reservoir resulted in the loss of lots of stock, but so far no human life has been reported lost.

**Fighting to Save Bridge.**

Denison, Texas, Aug. 7.—The approaches to the Frisco bridge and a section of the bridge over the South Canadian river in Indian Territory, were washed away this morning, causing a suspension of traffic. Passenger trains are being detoured over the Missouri, Kansas and Texas.

A mighty battle is being waged by the Katy to save its South Canadian river bridge. Today 30,000 sacks were sent to the bridge, where they are being filled and used to protect the bridge approaches. The Katy has spent thousands of dollars in rebuilding the South Canadian river bridge and it was

supposed to be past the danger line.

On the Shawnee division of the Katy many feet of track at Tyrola, where the road crosses the South Canadian, are washed away.

The Rock Island is also reported in trouble at its South Canadian bridge.

**Washouts Delay Traffic.**

Oklahoma City, Okla., Aug. 7.—Traffic on the Rock Island between here and South McAlester and the Shawnee division of the Missouri, Kansas and Texas is tied up on account of washouts due to the heavy rains. Many streams are overflowing bottom lands and much damage has been done to crops.

**Dispatch From Ardmore.**

Ardmore, I. T., Aug. 7.—Terrific rainstorms are reported today from several sections of the Chickasaw nation, and in some places the precipitation almost equaled a cloudburst.

Along the line of the Santa Fe, north of here, the heavy rains of the past few days have wrought considerable damage to railroad property. Trains on the Santa Fe today operated with difficulty owing to reported washouts and traffic is being delayed. A large force of workmen are repairing the breaks and it is stated that through traffic will be resumed within the next twelve hours.

It is reported that the Frisco bridge near Francis is gone.

In the lowlands damage to crops will result.

## TAMMANY WILL ENDORSE WILLIAM JENNINGS BRYAN

New York, Aug. 7.—To endorse William J. Bryan for the Democratic Presidential nomination in 1908, Charles F. Murphy will issue a call for a special meeting of the Tammany general committee, to be held next week. Announcement of this intention on the part of the Tammany leader convinced Democrats that Mr. Murphy, contrary to a belief which existed in some quarters, is heart and soul in the Bryan movement.

His intimate friends express no surprise, because they have known all along that he favors the nomination of Mr. Bryan in preference to all others. Mr. Murphy also accepted an invitation today to serve as a member of the executive committee in charge of the arrangements for the Bryan reception.

Friends of Mr. Bryan decided today to establish permanent Bryan Headquarters in New York City, and to begin immediately systematically to boom the Nebraskan for presidential honors. It is likely that the rooms now used by the Bryan Reception committee in the Victoria Hotel will be retained for the purpose. With plenty of funds in sight to begin work on a broad scale, the new committee will begin to send out literature as soon as the Bryan reception is over, and their

campaign will continue right up to the calling of the National convention two years hence.

**Vardaman Feminist the Negro.**

New Orleans, Aug. 8.—An appeal by Governor Vardaman of Mississippi to white voters to select state legislators who will vote to stop granting appropriations for the education of negro children, is reported from Brookhaven, Miss., where the governor visited a farmer's meeting.

Of the negro question in Washington, D. C., Governor Vardaman said there is need of a "Jim Crow" law in reserving certain seats for negroes in that city.

He said that southern congressmen do not propose the enactment of such a law because they are afraid of criticism. He declared that if chosen to represent Mississippi in the senate he would offer such a bill at least once a year.

He said that he would rather be instrumental in securing the repeal of the fifteenth amendment than to wield the sceptre of King Edward the seventh of England.

## OLIVER PREACHED GRAND SERMON TUESDAY NIGHT

**To Suppress Contraband Beverages.**

Vinita, I. T., Aug. 6.—The United States attorney's office at this place has determined to get after the uno, ino, longhorn and such other malt drinks in a vigorous manner, and to suppress, if possible, the traffic of such drinks in the Northern district, and accordingly the following notice has been given the public:

"To the Public:

"The following is a copy of a letter received by me from the attorney general of the United States with reference to the enforcement of the liquor law in the Northern district:

"The department of justice has received a number of communications, including copies of newspapers published within Indian Territory, bearing upon the subject of the illegal liquor traffic in the territory. In the Sapulpa Light, July 20, 1906, a copy of which was received this morning, it is stated that one of the largest firms in Texas has located a branch at Sapulpa this week. This will be the headquarters or distributing point for all towns around, including Okmulgee on the south, Tulsa to Vinita east, and west into Oklahoma. The goods handled will be the famous longhorn, a drink that is said to eclipse the efforts of uno and ino. The article further states Ardmore, Muskogee and South McAlester are three other distributing points in the territory.

"People made fun of Noah when he responded to the command of his God to build an ark. Perhaps his family was snubbed by the social leaders of his neighborhood. People called him an old stogy, and mocked and scoffed at him. But Noah said, 'God will send plenty of water.' He will always flood the soul when his children obey his commands. You will not get a blessing while you are playing the hypocrite." Mr. Oliver quit his line of thought just here long enough to condemn hypocrisy in the local church. He said that those who drive to Byrd's mill or any other mill on Sunday ought to be turned out of the churches. "There are hypocrites right here in Ada who are dragging men and women to hell." Mr. Oliver asked, "Are you fulfilling the command God has made of you?"

"Just as the people were indifferent and reveling in sin while Noah was building the ark, people are today turning an indifferent ear to the warning that God will again destroy this old world and all with it who do not take heed now and make their eternity secure in the ark of the blood of Jesus Christ."

Mr. Oliver attacked the theory of the Universalists, who say that God is too good to punish his people. "The same devil who told Eve to eat of the forbidden fruit, that no harm would come to her, tell the Universalists that God is too good to punish those who disobey Him."

Mr. Oliver's description of the filling of the ark with birds, beast and man; the dastardly work of the uncompromising waters and the awful end that befell all living creatures was eloquent, graphic and picturesque. He painted a life like picture, which will always be remembered by those who heard him.

Mr. Oliver pleaded that the families of Ada let God shut them in the ark of salvation just as He shut Noah and his family in the literal ark. "It means eternal security. I pray God that He save you from the storm of judgment."

**Announcements.**

Mr. Oliver will preach a farewell sermon to the Christian people Sunday morning at 11 o'clock on the "Baptism of the Holy Spirit."

On Sunday afternoon he will preach to men only. Subject, "Manhood."

"WADE S. STANFIELD,  
United States Attorney."

**OVERDRAFTS**

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

# 16th District's Big DEMOCRATIC RALLY!

The Democracy of the 16th District will rally in Ada

# MONDAY, AUGUST 13

The leading orators and United States Senatorial candidates from Oklahoma will address the throng. Hon. Jack Beal of Dallas, Texas, the brilliant Texas Congressman, will be present. A large number of State and Congressional candidates will be the District's guests that day, and will be proud to meet the people. The Democrats of Ada will give a barbecue supper to all the visitors. Between the shoutings and oratory and the feasting there will be music by two of the leading brass bands of the Indian Territory.

The splendid tabernacle constructed by the citizens of Ada, where the exercises will occur, has comfortable seating capacity of nearly 3,000 people.

Monday will be the real opening of the county campaign. Scores upon scores of candidates and prospective candidates for county offices will be on hand, and vigilant. The presence of the Democracy of the 16th district is demanded.

All the Democrats and other good citizens who are seeking after the political truth, or who attach some value to the reliable news capacity of a paper are cordially invited, when in town, to visit the Ada Daily and Weekly News office and plant, situated on the corner of 12th and Broadway, just across from the big tabernacle.

# DO NOT FAIL TO ATTEND!

1881, at the post office at Ada, Indian Territory  
under the Act of Congress March 3, 1891.

### Advertising rates on application.

Woe be unto the town knocker when it comes to running for an office in the new state. The press will not stand for a man to go to the constitutional convention who orders his stationery or other articles outside his home town. A man that will knock his home paper, merchant, or any kind of home enterprise cannot and must not be allowed to hold an office, for he may turn his back to us when he gets in.—Konawa Chief-Leader.

Prosperity is actually making eyes at Miss Ada. The city is on the verge of a prosperous leap that means the ranking of Ada among great Western cities. Keep your eyes open. Miss Ada was never destined to be poor, small nor weak. The News calls her the "Hub," and the hub she'll be. We predict the day when local items in the great metropolitan paper—the News—will read: "Mr. Blank, of Shawnee, was in town shopping today. Miss Jennie Singletree is visiting Miss Sal Wiggins on 42d street. Will Jones had a hand mangled at the cotton mills last night. Fire station No. 4 has installed a new hose wagon. A slight wreck on the K. C., L. & P. west of the city occurred last night. One of our newsboys was thrown from a street car on South Broadway this morning and sustained a broken wrist." This will give you a hint as to what we believe will come to pass.

### Gerrymanders Will Meet Again Friday.

South McAlester, Aug. 8.—The Gerrymandering Board has announced the approximate population of the various nations as follows:

Cherokee, 240,000.

Creek and Seminole, 185,000.

Choctaw and Chickasaw, 400,000.

Judge Gill states that the committeeman appointed to make the Cherokee census reports 240,000 and the postmasters' reports show 195,000.

Owing to the large showing made in the Choctaw and Chickasaw nations, he says he will be forced to accept the 240,000 reports.

There will be another meeting on Aug. 10.

Judge Gill thinks an election proclamation will be issued not later than Sept. 1.

There must be sixty day's notice of elections.

One policy has been determined by the committee.

They will not split Townships.

All shapes in districts may result, but the townships will remain intact.

As soon as the districts are made, maps will be printed showing the townships in each district and those will be distributed broadcast over the territory.

### Sugg Sells.

A. R. Sugg has sold his furniture stock on West Main to the Ada Furniture & Coffin Co. and W. C. Duncan & Co. The stock will be divided and moved to the places above mentioned.

Frank Jones and sons, Frank, Boone and Harry left today for Valentine, Texas. They will spend a month there. The News will follow.

#### Railroad Notes.

In the emergency created by flood damage to the Atoka-Oklahoma line of the M. K. & T., the Oklahoma Central has very kindly furnished 150 laborers and much needed material for speedy repair work on the line first mentioned.

Curiously enough, with the wholesale havoc wrought by the recent floods upon railroad tracks in this vicinity, not a vestige of damage has been discovered on the Oklahoma Central's line. Even on Sandy and Boggy creeks, which have been particularly rampant, no damage was found. This speaks volumes, both for the excellent engineering and the superior construction of that road.

Tuesday afternoon the M. K. & T.'s bridge on Buck creek, near Stonewall, succumbed to the raging waters. With all timbers and rails intact it was observed by a farmer floating serenely down the swollen stream.

The Oklahoma Central's new town-site, Walling, consisting of 310 acres one and a half miles south of McGee, has been opened and lots are now on sale. The sale is under the management of George Northrup, an efficient townsite man of much experience.

## TO VISIT NEIGHBORS

SECRETARY ROOT OFF FOR PAN-AMERICAN CONFERENCE.

Significance of Official's Mission to South America—Will Attempt to Dispel Erroneous Beliefs Regarding Our Attitude.

Washington.—An event of great importance to both South America and the United States is the trip which Secretary of State Root is making at present to the third pan-American conference at Rio de Janeiro and to the other principal South American cities.

The purpose of the trip, it is frankly stated, is to encourage better relations with our South American neighbors. Secretary Root will make a number of speeches and will talk personally with all the most distinguished statesmen of the south American countries. He will try to remove the popular idea from the Latin-American mind that the United States is armed with a big stick and intends eventually to bring the entire western hemisphere under its control.

In place of these erroneous beliefs Secretary Root will tell them that we will protect them from old world invasion and will try to be friendly and trade in peace with them. We will insist, he will tell them, that they must pay their debts and fight off plagues.

Root goes not officially, but as a distinguished visitor to the conference, which meets at Rio de Janeiro about the 23d of July. The president's summer palace at Petropolis, across the bay, will be his residence.

From Rio, at the conclusion of the conference the Charleston will convey Secretary Root to Montevideo and Buenos Ayres, around the Horn to Valparaiso, Bueno Ventura and up to Panama. He will inspect the canal and return home in October.

The official representatives of the United States to the Pan-American conference will be William L. Buchanan, chairman; ex-Gov. H. A. Montague, of Virginia; Dr. L. S. Rowe, of the

SECRETARY OF STATE ROOT.  
(Cabinet Official Who Is Making a Tour of South American Countries.)

University of Pennsylvania; Van Weer Polk, of Tennessee; Tullio Larrinaga, the Porto Rican delegate in congress; Prof. Paul S. Reich, of the University of Wisconsin, and Charles Ray Dean, of the state department, who goes as secretary.

For the first time the South American countries have been asked to the conference at The Hague. So that fact makes the coming Pan-American conference very important.

The delegates of all the creditor countries will probably take a united stand in favor of what is known as the Drago doctrine, the name being derived from the fact that it was the first generally advocated by Dr. Louis Drago, minister for foreign affairs of the Argentine republic. This doctrine is briefly that a citizen of some foreign country, as, for example, the United States, who lends money to the government of a South American country, ought to depend solely upon the courts of the country to which the money is loaned for collection, and that under no circumstances should he invoke the aid of his own government to collect such a debt.

In support of such a doctrine it is pointed out that money lenders who advance money to impudent and unreliable governments, such as some of the South American republics, are charge sufficient interest and impose other hard conditions to fully compensate for the risks they run of losing the money.

It is considered unfair by South American statesmen that their governments should become involved in continuous diplomatic difficulties with foreign nations by dealings which have been of a private character and with private citizens of those countries.

The conference will discuss other subjects, such as: international copyright, quarantine regulations, uniformity of customs and court regulation, and the general topic of arbitration.

### Leper Colony in Philippines.

The first permanent leper colony in the Philippines has been established on Cullon island, in the Philippines, and 200 lepers have been removed there from Cebu. All cases discovered in the future will be sent there. Four Catholic nuns have volunteered their services and are now en route to the settlement to devote their lives to nursing the afflicted.

### "Spotless Town" Is Found.

Pleasant town, in northern Michigan, a Chippewa county subdivision with population of 1,500 and an area of 113 square miles, possesses a unique distinction. Since its organization in 1877 it has had only one criminal case. The first liquor license is yet to be granted and paupers are unknown.

## TO STUDY YANKEE TACTICS

Lieut. Brugere of France Will Attend United States College Through Courtesy of Roosevelt.

Kansas City.—Lieut. Jean Batiste Brugere, son of Gen. Brugere, chief of staff of the French army, is the guest of officers at Fort Leavenworth.

The presence of the young Frenchman in this country is a recognition by President Roosevelt of the courtesies paid Gen. Chaffee, Gen. Bell and Gen. Crozier by Gen. Brugere during the visit of the American officers to France last year.

Upon the return of the American commission, after spending several weeks in France studying French mil-

LIEUT. JEAN BATISTE BRUGERE.  
(French Army Officer Who Will Study American Military Methods.)

tary methods, Gen. Bell made it known to the president that Gen. Brugere was exceedingly anxious that his son should have a course of study at the United States staff college. Some months ago President Roosevelt extended an invitation to the young man to enter the school at Fort Leavenworth, and Lieut. Brugere arrived in New York about the middle of March. He visited President Roosevelt and Secretary Taft before coming west.

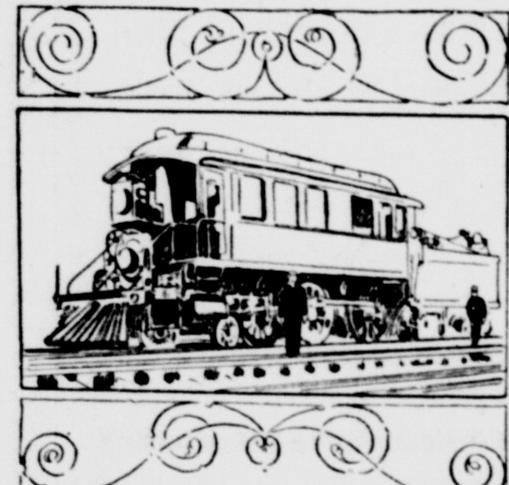

Lieut. Brugere, who is 22 years old, comes from a long line of French warriors. He holds a commission in the Chasseurs d'Afrique, now stationed at Tiemcen, Algeria. He was a student at the Ecole Militaire at St. Cyr for two years and at Saumur a year, after which he received a commission in the regiment to which he belongs at the present time. Until the opening of the staff college next fall Lieut. Brugere will devote himself to the American language and accustom himself to American ways.

### LOCOMOTIVE IN POLITICS.

Equipped with Private Observatory—"Vermont Political Machine" Has Interesting History.

New York.—One of the best equipped of the few private observation locomotives owned by railroad officials in this country is the St. Lawrence, the property of the Central Vermont rail-

This locomotive, which has an interesting history, was originally owned by Col. E. C. Smith, former president

"THE VERMONT POLITICAL MACHINE."

of the Central Vermont road and governor of Vermont, and was used by Gov. Smith as the pilot of his private car, Mansfield.

By some of those who were active in Vermont politics while Mr. Smith was chief executive of the Green Mountain state the St. Lawrence was known as "the Vermont political machine," a name which was developed through the frequent use of the locomotive on political errands in state campaigns.

When Gov. Smith retired from the presidency of the road, the St. Lawrence became the property of the railway company and is now used by General Manager Jones and other officers.

The locomotive was constructed with a view to the peculiar uses to which it might be and is now put, such as conveying the chief officials of the road on their tours of inspection over the line, as well as for hauling the private cars on trips of business or pleasure. It was built in Schenectady, 14 years ago. It is of the eight-wheel type, with the observation car in front and above the boiler. The observation saloon is handsomely furnished with carpet and rattan chairs.

The boiler mountings on the engine are nickel plated, and the observation saloon is equipped with electric lights. A speed recorder and other modern appliances are attached. The total weight of the engine is 158,000 pounds and is capable of developing 160 pounds of steam pressure, a sufficiency to guarantee a high rate of speed for a locomotive of that type.

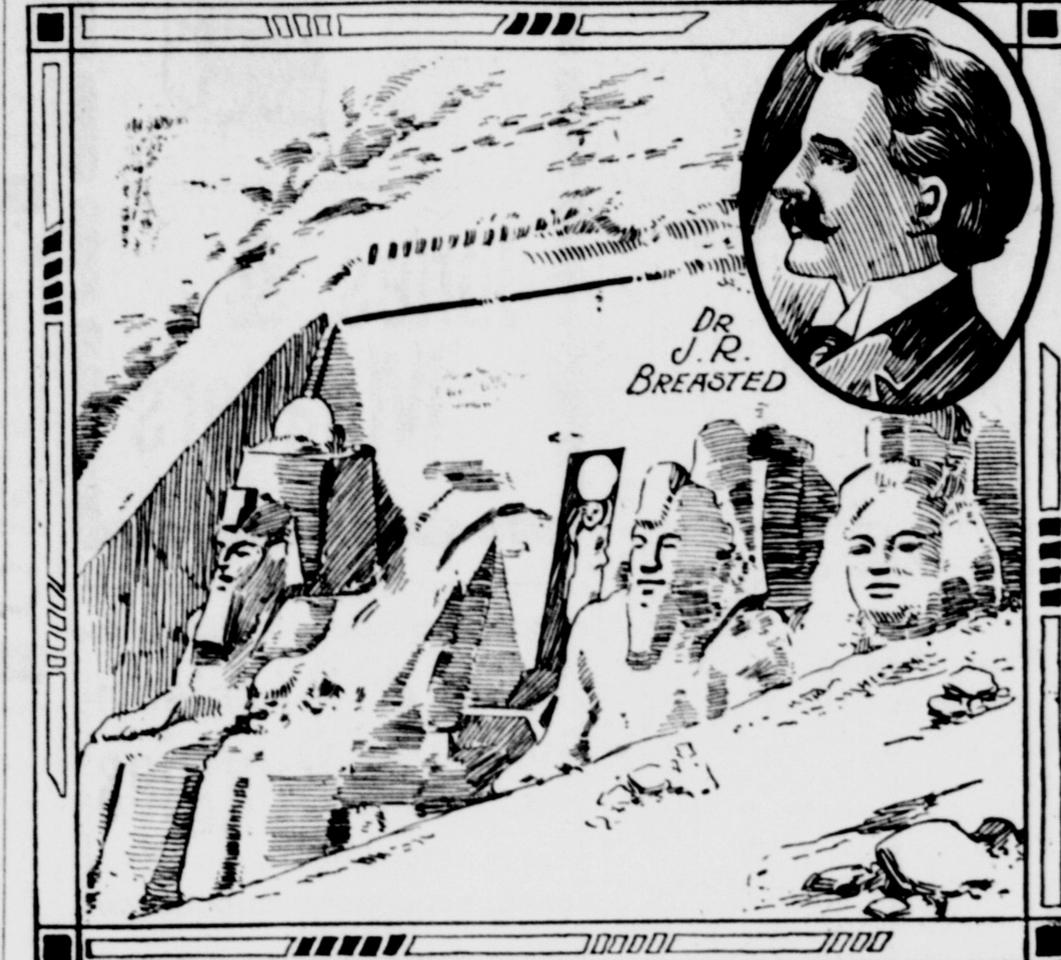

## MAGNIFICENT EGYPTIAN SUN TEMPLE BUILT BY RAMSES II.

*Historic Ruins Have Been Explored by a Party of Scientists and Interesting Facts of Ancients Brought to Light.*

Chicago.—Egypt's monumental temples, which have stood since the time of the Pharaohs with their greatest secrets hidden in dark and partially explored caverns, have been opened under the light of modern science and their mysteries dissected. New details on the religious and social customs of the ancients and additional facts concerning the kings who ruled over the Nile country long before the time of the Ptolemys have been unearthed and recorded through the efforts of Prof. James H. Breasted, of the University of Chicago, who has

several imperial German research expeditions as a photographer, and a force of 20 skilled workmen. Additional laborers, sometimes in large numbers, were employed for local work in various places.

The great hall of Abu-Simbel, hewn into the side of the mountain by the subjects of Ramses II, and called the "sun temple," occupied seven weeks of the explorers' time. As in the case of the other temples, the walls were marked off into rectangles and photographed from scaffolding. Prof. Breasted afterward marking into the

pictures such minute scratches as had escaped the camera.

Abu-Simbel presents a most beautiful sight, according to Prof. Breasted, extending 180 feet into the mountain. The "great hall," the first of four large chambers, is supported by eight huge statues, each of which is a representation of King Azr Siras. It is 150 feet broad and 40 feet high. Near the door is a statue of the sun god, Re or Phre, to whom the temple is dedicated. Outside the entrance are four colossal statues of Ramses II. Each one of these is 72 feet high. One of the statues is minus the upper part of the body and the others have been chipped off considerably.

### HIDEOUS ALASKAN TOMB.

Resting Place of Chief Is Embellished with Grotesque Caricatures of Sea Monsters.

New York.—All kinds of strange, hideous things are coming to civilization from the interior of Alaska. One of the latest is a photograph of the tomb of an Alaskan chief. Really it looks as if it were from the interior of Tartary or the mountains of Thibet, where the monstrous is considered beautiful and the more grotesque and scary a picture is the more it is prized.

The illustration herewith shows the difference between the uncivilized and civilized ancients. Imagine a Roman hero put away in a tomb with a nightmare face engraved on the marble slab.

The chap who died in Alaska to join his forefathers was a great chief in his day, and his wonderful feats in killing sharks, polar bears, mountain lions, saying nothing of his enemies, are supposed to be embodied in the caricatures on his tomb, which, by the way, is not made of slabs of marble, but of driftwood which the ocean had dashed against the cliffs of Alaska for a century or two before it came ashore the sea pickling the wood with its brine and preserving it for all time.

AN ALASKAN NIGHTMARE TOMB.

According to experts the figure on the tomb may represent the head of a shark, the fiercest of sea monsters, which the great chief once killed with a single stroke of his mighty club. The superstition is that should anybody disturb the remains of this honored warrior the ghostly legions guarding him would be sure to be revenged and some night in a terrible storm would swoop down on the offender, blow him stiff and carry him away on a cloud to be dropped into the depths of the ocean.

### Dewey's Capture.

The gunboats Albia, Mindanao and Maileno, which were captured by Admiral Dewey when he destroyed the Spanish fleet, have been sold as junk for \$6,606 at Olongapo, P. I. The boats participated in the battle of Manila bay.

### NEW PRESIDENT OF LEAGUE

Gen. E. A. McAlpin, Well-Known in Politics, Heads Organization of Republican Clubs.

New York.—Gen. Edwin Augustus McAlpin, who was elected president of the National League of Republican clubs, in convention in Philadelphia, has been a national figure in political

GEN. E. A. MCALPIN.  
(New President of the National League of Republican Clubs.)

affairs for many years, and especially identified with the activities of the league. In 1889 he was president of its New York state branch and some years later served one term as national president. He is president of the McAlpin Tobacco company, interested in a number of industrial enterprises and for many years has been identified with the state national guard, notably as lieutenant colonel of the Seventy-first regiment. In 1895 he was adjutant general.

### Rabbit as Regiment Pet.

British regiments have adopted strange pets from time to time, but the strangest probably is that of the Montgomeryshire Yeomanry, now in camp in Garth, Breconshire. It is a rabbit, found recently by the regimental postman in a letter box he was clearing. Attached to its neck was a label, on which were a halfpenny stamp and the address of a gentleman in Wrexham, Denbighshire. The rabbit is being made much of by the regiment.

### Wellington's Favorite Charger.

Copenhagen, the duke of Wellington's favorite charger, is buried in a paddock at Stratfield Saye, Hampshire. The interment took place with military honors. The inscription on the stone placed over the grave reads: "Here lies Copenhagen, the Charger ridden by the Duke of Wellington the entire day at the Battle of Waterloo, born 1808. Died 1836. 'God's humbler instrument, though meane clay, should share the glory of that glorious day.'

## A TEMPLE OF BUDDHA

ONE RECENTLY TRANSPORTED FROM JAPAN.

Interesting Oriental Place of Worship Said to Be the Only One in America—Has Been Placed in Philadelphia Park.

Philadelphia.—In this free land the pious or the superstitious may worship anything or nothing without causing comment. But we have not yet grown accustomed to the worship of Buddha, and the sight of Japanese appealing to the gods of their island home is one to cause a national craning of necks. The shrine that is the mecca for pious orientals is a temple recently set up by Japanese workmen in a shady corner of Fairmount park, Philadelphia. It was never intended as a place of worship, but was set up merely as a curiosity for American visitors to the park. Just as pious Americans in a foreign land, however, would avail themselves of the privilege of praying and meditating in a Christian church, so Japs who live in Philadelphia or who go there on foreign ships, seek the favor of their own gods in the quaint retreat just erected in Fairmount park.

The temple is said to be the only one outside of Japan. The Japs are indebted to John H. Converse and Samuel M. Vauclain for the privilege of worshipping Buddha in a foreign land. Once within the sacred portals Buddhists might imagine themselves back in the land of the lotus. Wide-eyed and gentle visaged goddesses await the coming of the believer, wonderfully carved symbols adorn the altars, mother of pearl incense bowls are at hand for the faithful, and Buddhist deities in various poses invite a continuance of the homage to which they were accustomed in the land of their origin. It is very interesting, very oriental and ancient enough to satisfy the most exacting lover of the antique. The temple was built more than 300 years ago at the village of Furimachi, province of Hadachi, Japan, by Lord Satake Giobu-no-Tayu, of the noble Satake family, in memory of his father, and for the peaceful rest of his departed soul. It is two stories high and resembles an Indian pagoda in its architecture. There is an out-

THE BUDDHIST TEMPLE IN PHILADELPHIA.

side balcony on the second story encircling the structure, which is 45 feet high, 30 feet wide and 16 feet in depth. Its roof is tiled, as are all Buddhist temples, in distinction from Shinto temples, which are always straw thatched. The chrysanthemum, which is the Japanese imperial crest, is seen prominently upon the roof. It was allowed to be put there when the imperial tablet was conferred upon the Temple Sciojui. The two Deva kings, Brahma and Indra, stand on either side of the gate as guards of the temple. Fantastic and fabulous beasts carved out of wood project from every beam and support, corresponding to the gargoyle of Christian ecclesiastical architecture. The old bronze bell, which hangs on the balcony was cast 450 years ago, and was used to summon the devout to prayer.

In the interior of the second floor are the shrines and religious treasures. The shrine of the Goddess of Mercy stands in the center, guarded on each side by two sacred dogs which were carved 600 years ago. Hung about are the curious cymbals, gongs, bells and drums which are used in the religious ceremonies. On the wall hangs a picture of the Buddhist paradise, painted on silk. Eternal Buddha is seen in one corner. The mural paintings are by the best artists of the time, and the design is different in each panel.

Among the regular visitors to the temple are members of the Japanese colony at the University of Pennsylvania. One student, a devout worshiper of Buddha, is almost a daily visitor to the shrine in the park. He is always alone, and is very careful to see that no mocking freshman or sophomore follows him to the scene of his devotion. Only the flesh and blood guardians of the temple and Brahma, the fierce-looking image who eternally scowls at the visitors, see the little student burn incense to the gods of his homeland.

### Chain-Making Machine.

Lelong, a Belgian inventor, has devised what is said to be the first successful apparatus with which, by the use of but one furnace and one machine, a continuous chain may be made and completely finished. The iron is fed into the machine in the shape of straight rods, and comes out a complete chain. Chains of any size may thus be made, from the smallest "tackles" up to huge chains used in the navy.

Paris Exports Record Broken. Consul General Mason, at Paris, has completed the records for the fiscal year. He says the total exports from Paris to the United States were \$52,037,685, showing an increase of 27 per cent, and breaking the record.

## HIGH POST FOR LABOR MAN

Head of Railway Conductors Is Made a Member of Interstate Commerce Commission.

Oyster Bay, N. Y.—President Roosevelt has appointed E. E. Clark, of Cedar Rapids, Ia., grand chief of the Order of American Railway Conductors, a member of the interstate commerce commission. The new appointee fills one of the two new commissionerships provided by the railroad rate law passed by congress during the last session.

Mr. Clark has shown great ability in the handling of labor questions, both in his position as head of the railway conductors and as a member of the anthracite coal strike commission. He was highly commended to

E. E. CLARK.  
(Well-Known Labor Leader Who Has Been Appointed to Interstate Commerce Board.)

the president by his associates. He is cordially indorsed also by the senators and representatives from Iowa, and by several of the most influential labor organizations.

Mr. Clark has been at the head of the Railway Conductors' brotherhood for many years. The president believes that he has the confidence of the labor element of the country as completely as any other man.

Mr. Clark was born on February 18, 1856, within the sound of the locomotive whistles of old Erie, in the quiet village of Lima, in Livingston county, N. Y. His father died when the boy was but six years old, but Clark's will and energy were early manifest. He entered and graduated from the Genesee Wesleyan seminary at Lima, at that time an institution of wide reputation. In 1874 his mother, accompanied by her four children, went west and located in Austin, Minn. While there Clark obtained employment as brakeman on a western railroad and from then until 1889 went through the usual trials and hardships incident to the life of a brakeman, freight and passenger conductor, when he resigned active railroading to enter the service of the Order of Railway Conductors of America. He was elected to the position of grand senior conductor by the grand division, which met at Denver. One year afterwards he became grand chief conductor, which position he has now held for 16 years to the great dignity and credit of the order and himself.

### RESTING PLACE FOR HANNA

Handsome Mausoleum at Cleveland, O., Built at Cost of \$100,000, Is Almost Completed.

Cleveland, O.—The mausoleum in Lake View cemetery, Cleveland, which is to be the last resting place of the remains of Marcus A. Hanna, will be entirely completed within the next few weeks at most. The exterior work is already about done, and the grounds have been graded and sown with grass seed. The body of the late

## STREAMS ARE STILL ON RAGE --- MUCH DAMAGE

### Santa Fe in Trouble.

Paul Valley, I. T., Aug. 7.—One of the heaviest rains ever witnessed in this section fell here last night. It fell in torrents almost all night and all streams are greatly swollen.

The Santa Fe track is cut out between here and Purcell and also above Purcell.

The Santa Fe reservoir at Byars, about eighteen miles east of here which covered about 170 acres broke loose this morning and inundated the country adjacent. About a mile and a half of the Santa Fe track this side of Byars is gone, and it will probably be a week before trains are running on that branch.

The breaking of the Byars reservoir resulted in the loss of lots of stock, but so far no human life has been reported lost.

### Fighting to Save Bridge.

Denison, Texas, Aug. 7.—The approaches to the Frisco bridge and a section of the bridge over the South Canadian river in Indian Territory, were washed away this morning, causing a suspension of traffic. Passenger trains are being detoured over the Missouri, Kansas and Texas.

A mighty battle is being waged by the Katy to save its South Canadian river bridge. Today 30,000 sacks were sent to the bridge, where they are being filled and used to protect the bridge approaches. The Katy has spent thousands of dollars in rebuilding the South Canadian river bridge and it was result.

supposed to be past the danger line.

On the Shawnee division of the Katy many feet of track at Tyrola, where the road crosses the South Canadian, are washed away.

The Rock Island is also reported in trouble at its South Canadian bridge.

### Washouts Delay Traffic.

Oklahoma City, Okla., Aug. 7.—Traffic on the Rock Island between here and South McAlester and the Shawnee division of the Missouri, Kansas and Texas is tied up on account of washouts due to the heavy rains. Many streams are overflowing bottom lands and much damage has been done to crops.

### Dispatch From Ardmore.

Ardmore, I. T., Aug. 7.—Terrific rainstorms are reported today from several sections of the Chickasaw nations, and in some places the precipitation almost equaled a cloudburst.

Along the line of the Santa Fe, north of here, the heavy rains of the past few days have wrought considerable damage to railroad property. Trains on the Santa Fe today operated with difficulty owing to reported washouts and traffic is being delayed. A large force of workmen are repairing the breaks and it is stated that through traffic will be resumed within the next twelve hours.

It is reported that the Frisco bridge near Francis is gone.

In the lowlands damage to crops will

## OLIVER PREACHED GRAND SERMON TUESDAY NIGHT

### To Suppress Contraband Beverages.

Vinita, I. T., Aug. 6.—The United States attorney's office at this place has determined to get after the uno, ino, longhorn and such other malt drinks in a vigorous manner, and to suppress, if possible, the traffic of such drinks in the Northern district, and accordingly the following notice has been given the public:

"To the Public:

"The following is a copy of a letter received by me from the attorney general of the United States with reference to the enforcement of the liquor law in the Northern district:

"The department of justice has received a number of communications, including copies of newspapers published within Indian Territory, bearing upon the subject of the illegal liquor traffic in the territory. In the Sapulpa Light, July 20, 1906, a copy of which was received this morning, it is stated that one of the largest firms in Texas has located a branch at Sapulpa this week. This will be the headquarters or distributing point for all towns around, including Okmulgee on the south, Tulsa to Vinita east, and west into Oklahoma. The goods handled will be the famous longhorn, a drink that is said to eclipse the efforts of uno and ino. The article further states Ardmore, Muskogee and South McAlester are three other distributing points in the territory.

"People made fun of Noah when he responded to the command of his God to build an ark. Perhaps his family was snubbed by the social leaders of his neighborhood. People called him an old stogy, and mocked and scoffed at him. But Noah said, 'God will send plenty of water.' He will always flood the soul when his children obey his commands. You will not get a blessing while you are playing the hypocrite." Mr. Oliver quit his line of thought just here long enough to condemn hypocrisy in the local church. He said that those who drive to Byrd's mill or any other mill on Sunday ought to be turned out of the churches. "There are hypocrites right here in Ada who are dragging men and women to hell."

Mr. Oliver asked, "Are you fulfilling the command God has made of you?" "Just as the people were indifferent and reveling in sin while Noah was building the ark, people are today turning an indifferent ear to the warning that God will again destroy this old world and all with it who do not take their duty to use their best efforts to see that the provisions of that law are carried out.

"The department of justice wishes this to be done, and you are directed, so long as present conditions exist, to spare no effort to see that the law in relation to the sale of liquor within the boundaries of your district are vigorously executed.

"Copies of this letter, and letters similar, have been sent to the United States marshals for this district and to the marshals and attorneys of all other districts in Indian Territory."

"The following is my letter in reply to the one from the attorney general:

"Replies to your letter of July 27, 1906, I have to say, that so far as the force in my office is concerned with reference to the enforcement of the liquor law in the Northern district of Indian Territory, we shall certainly be just as zealous in the enforcement of this law as if no recent legislation had been had, and will do everything we can to convict parties violating the liquor law."

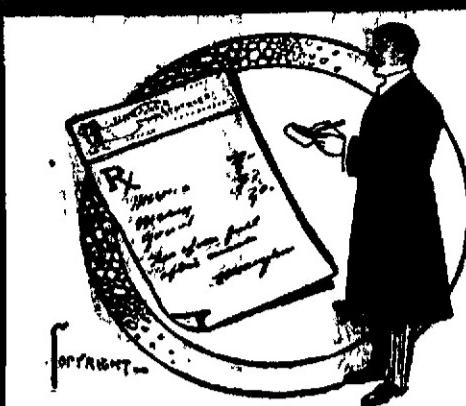

"In addition permit me to say that I shall use every means in my power to enforce the law and carry out the instructions of the attorney general.

"WADE S. STANFIELD,  
United States Attorney."

### Announcements.

Mr. Oliver will preach a farewell sermon to the Christian people Sunday morning at 11 o'clock on the "Baptism of the Holy Spirit."

On Sunday afternoon he will preach to me only. Subject, "Mankind."

### YOUR DOCTOR

## OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grow out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

# 16th District's Big **DEMOCRATIC RALLY!**

The Democracy of the 16th District will rally in Ada

# **MONDAY, AUGUST 13**

The leading orators and United States Senatorial candidates from Oklahoma will address the throng. Hon. Jack Beal of Dallas, Texas, the brilliant Texas Congressman, will be present. A large number of State and Congressional candidates will be the District's guests that day, and will be proud to meet the people. The Democrats of Ada will give a barbecue supper to all the visitors. Between the shoutings and oratory and the feasting there will be music by two of the leading brass bands of the Indian Territory.

The splendid tabernacle constructed by the citizens of Ada, where the exercises will occur, has comfortable seating capacity of nearly 3,000 people.

Monday will be the real opening of the county campaign. Scores upon scores of candidates and prospective candidates for county offices will be on hand, and vigilant. The presence of the Democracy of the 16th district is demanded.

All the Democrats and other good citizens who are seeking after the political truth, or who attach some value to the reliable news capacity of a paper are cordially invited, when in town, to visit the Ada Daily and Weekly News office and plant, situated on the corner of 12th and Broadway, just across from the big tabernacle.

# **DO NOT FAIL TO ATTEND!**

1911, at the post office at Ada, Indian Territory under the Act of Congress, March 3, 1893.

Advertising rates on application.

Woe be unto the town knocker when it comes to running for an office in the new state. The press will not stand for a man to go to the constitutional convention who orders his stationery or other articles outside his home town. A man that will knock his home paper, merchant, or any kind of home enterprise cannot and must not be allowed to hold an office, for he may turn his back to us when he gets in.—Konawa Chief-Leader.

Prosperity is actually making eyes at Miss Ada. The city is on the verge of a prosperous leap that means the ranking of Ada among great Western cities. Keep your eyes open. Miss Ada was never destined to be poor, small nor weak. The news calls her the "Hub," and the hub she'll be. We predict the day when local items in the great metropolitan paper—the News—will read: "Mr. Blank, of Shawnee, was in town shopping today. Miss Jennie Singletree is visiting Miss Sal Wiggins on 42d street. Will Jones had a hand mangled at the cotton mills last night. Fire station No. 4 has installed a new hose wagon. A slight wreck on the K. C., L. & P. west of the city occurred last night. One of our newsboys was thrown from street car on South Broadway this morning and sustained a broken wrist." This will give you a hint as to what we believe will come to pass.

## Gerrymanders Will Meet Again Friday.

South McAlester, Aug. 8.—The Gerrymandering Board has announced the approximate population of the various nations as follows:

Cherokee, 240,000.

Creek and Seminole, 185,000.

Choctaw and Chickasaw, 400,000.

Judge Gill states that the committeeman appointed to make the Cherokee census reports 240,000 and the postmasters' reports show 195,000.

Owing to the large showing made in the Choctaw and Chickasaw nations, he says he will be forced to accept the 240,000 reports.

There will be another meeting on Aug. 10.

Judge Gill thinks an election proclamation will be issued not later than Sept. 1.

There must be sixty day's notice of elections.

One policy has been determined by the committee.

They will not split Townships.

All shapes in districts may result, but the townships will remain intact.

As soon as the districts are made, maps will be printed showing the townships in each district and those will be distributed broadcast over the territory.

## Sugg Sells.

# TO VISIT NEIGHBORS

SECRETARY ROOT OFF FOR PAN-AMERICAN CONFERENCE.

Significance of Official's Mission to South America—Will Attempt to Dispel Erroneous Beliefs Regarding Our Attitude.

Washington.—An event of great importance to both South America and the United States is the trip which Secretary of State Root is making at present to the third pan-American conference at Rio de Janeiro and to the other principal South American cities.

The purpose of the trip, it is frankly stated, is to encourage better relations with our South American neighbors. Secretary Root will make a number of speeches and will talk personally with all the most distinguished statesmen of the south American countries. He will try to remove the popular idea from the Latin-American mind that the United States is armed with a big stick and intends eventually to bring the entire western hemisphere under its control.

In place of these erroneous beliefs Secretary Root will tell them that we will protect them from old world invasion and will try to be friendly and trade in peace with them. We will insist, he will tell them, that they must pay their debts and fight off plagues.

Root goes not officially, but as a distinguished visitor to the conference, which meets at Rio de Janeiro about the 23d of July. The president's summer palace at Petropolis, across the bay, will be his residence.

From Rio, at the conclusion of the conference the Charleston will convey Secretary Root to Montevideo and Buenos Ayres, around the Horn to Valparaiso, Bueno Ventura and up to Panama. He will inspect the canal and return home in October.

The official representatives of the United States to the Pan-American conference will be William L. Buchanan, chairman; ex-Gov H. A. Montague, of Virginia; Dr. L. S. Rowe, of the

## TO STUDY YANKEE TACTICS

Lieut. Brugere of France Will Attend United States College Through Courtesy of Roosevelt.

Kansas City.—Lieut. Jean Batiste Brugere, son of Gen. Brugere, chief of staff of the French army, is the guest of officers at Fort Leavenworth.

The presence of the young Frenchman in this country is a recognition by President Roosevelt of the courtesies paid Gen. Chaffee, Gen. Bell and Gen. Crozier by Gen. Brugere during the visit of the American officers to France last year.

Upon the return of the American commission, after spending several weeks in France studying French mil-

LIEUT JEAN BATISTE BRUGERE (French Army Officer Who Will Study American Military Methods)

tary methods. Gen. Bell made it known to the president that Gen. Brugere was exceedingly anxious that his son should have a course of study at the United States staff college. Some months ago President Roosevelt extended an invitation to the young man to enter the school at Fort Leavenworth, and Lieut. Brugere arrived in New York about the middle of March. He visited President Roosevelt and Secretary Taft before coming west.

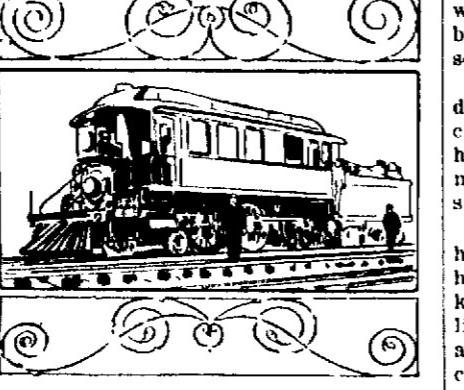

Lient Brugere, who is 22 years old, comes from a long line of French warriors. He holds a commission in the Chasseurs d'Afrique, now stationed at Tlemcen, Algeria. He was a student at the Ecole Militaire at St. Cyr for two years and at Sauterne a year, after which he received a commission in the regiment to which he belongs at the present time. Until the opening of the staff college next fall Lieut. Brugere will devote himself to the American language and accustom himself to American ways.

## LOCOMOTIVE IN POLITICS.

Equipped with Private Observatory "Vermont Political Machine" Has Interesting History.

New York.—One of the best equipped of the few private observation locomotives owned by railroad officials in this country is the St. Lawrence, the property of the Central Vermont rail-

This locomotive, which has an interesting history, was originally owned by Col E C Smith, former president

of the Central Vermont road and governor of Vermont, and was used by Gov. Smith as the pilot of his private car, Mansfield.

By some of those who were active in Vermont politics while Mr. Smith was chief executive of the Green Mountain state the St. Lawrence was known as "the Vermont political machine," a name which was developed through the frequent use of the locomotive on political errands in state campaigns.

When Gov. Smith retired from the presidency of the road, the St. Lawrence became the property of the rail way company and is now used by General Manager Jones and other officials.

The locomotive was constructed with a view to the peculiar uses to which it might be and is now put, such as conveying the chief officials of the road on their tours of inspection over the line, as well as for hauling the private cars on trips of business or pleasure. It was built in Schenectady, 14 years ago. It is of the eight-wheel type, with the observation car in front and above the boiler. The observation saloon is handsomely furnished with carpet and rattan chairs.

The boiler mountings on the engine are nickel plated, and the observation saloon is equipped with electric lights.

A speed recorder and other modern appliances are attached. The total weight of the engine is 158,000 pounds and is capable of developing 180 pounds of steam pressure, a sufficiency to guarantee a high rate of speed for a locomotive of that type.

## MAGNIFICENT EGYPTIAN SUN TEMPLE BUILT BY RAMSES II.

*Historic Ruins Have Been Explored by a Party of Scientists and Interesting Facts of Ancients Brought to Light.*

Chicago.—Egypt's monumental temples, which have stood since the time of the Pharaohs with their greatest secrets hidden in dark and partially explored caverns, have been opened under the light of modern science and their mysteries dissected. New details on the religious and social customs of the ancients and additional facts concerning the kings who ruled over the Nile country long before the time of the Ptolemys have been unearthed and recorded through the efforts of Prof. James H. Breasted, of the University of Chicago, who has

spent imperial German research, expeditions as a photographer, and a group of skilled workmen. Additional laborers, sometimes in large numbers, were employed for local work in various places.

The great hall of Abu-Simbel, hewn into the side of the mountain by the subjects of Ramses II, and called the "sun temple," occupied seven weeks of the explorers' time. As in the case of the other temples, the walls were marked off into rectangles and photographed from scaffoldings. Prof. Breasted afterward marking into the

just returned after a nine-months' visit to the land of the pyramids as director of that institution's Egyptian Exploration expedition.

The magnificent "sun temple" of Abu-Simbel, the most striking of the many monuments left by Ramses II, and the temple of Amada, both of which are described as of "surpassing beauty," were among the structures explored by Prof. Breasted and his party. These temples, which are situated along the explored region for a distance of 200 miles, were microscopically examined. The party consisted of Prof. Breasted, the director, Victor Persons, the engineer, A. Koch, of Berlin, who has been connected with sev-

ples such minute scratches as had escaped the camera.

Abu-Simbel presents a most beautiful sight, according to Prof. Breasted, extending 180 feet into the mountain. The "great hall," the first of four large chambers, is supported by eight huge statues, each of which is a representation of King Azr Siras. It is 150 feet broad and 40 feet high. Near the door is a statue of the sun god, Re or Phre, to whom the temple is dedicated. Outside the entrance are four colossal statues of Ramses II. Each one of these is 72 feet high. One of the statues is minus the upper part of the body and the others have been chipped off considerably.

## HIDEOUS ALASKAN TOMB.

Resting Place of Chief Is Embellished with Grotesque Caricatures of Sea Monsters.

New York.—All kinds of strange, hideous things are coming to civilization from the interior of Alaska. One of the latest is a photograph of the tomb of an Alaskan chief. Really it looks as if it were from the interior of Tartary or the mountains of Tibet, where the monstrous is considered beautiful and the more grotesque and scary a picture is the more it is prized.

The illustration herewith shows the difference between the uncivilized and civilized ancients. Imagine a Roman hero put away in a tomb with a nightmare face engraved on the marble slab.

The chap who died in Alaska to join his forefathers was a great chief in his day, and his wonderful feats in killing sharks, polar bears, mountain lions, saying nothing of his enemies, are supposed to be embodied in the caricatures on his tomb, which, by the way, is not made of slabs of marble, but of driftwood which the ocean had dashed against the cliffs of Alaska for a century or two before it came ashore the sea pickling the wood with its brine and preserving it for all time.

AN ALASKAN NIGHTMARE TOMB.

According to experts the figure on the tomb may represent the head of a shark, the fiercest of sea monsters, which the great chief once killed with a single stroke of his mighty club. The superstition is that should anybody disturb the remains of this honored warrior the ghostly legions guarding him would be sure to be revenged and some night in a terrible storm would swoop down on the offender, blow him stiff and carry him away on a cloud to be dropped into the depths of the ocean.

## Dewey's Capture.

The gunboats Albia, Mindanao and Malibon, which were captured by Admiral Dewey when he destroyed the Spanish fleet, have been sold as junk for \$6,600 at Olongapo, P. I. The boats participated in the battle of Manila bay.

## NEW PRESIDENT OF LEAGUE

Gen. E. A. McAlpin, Well-Known in Politics, Heads Organization of Republican Clubs.

New York.—Gen. Edwin Augustus McAlpin, who was elected president of the National League of Republican clubs, in convention in Philadelphia, has been a national figure in political

GEN E. A. MCALPIN. (New President of the National League of Republican Clubs)

affairs for many years, and especially identified with the activities of the league. In 1889 he was president of its New York state branch and some years later served one term as national president. He is president of the McAlpin Tobacco company, is interested in a number of industrial enterprises and for many years has been identified with the state national guard, notably as lieutenant colonel of the Seventy-first regiment. In 1895-6 he was adjutant general.

## Rabbit as Regiment Pet.

British regiments have adopted strange pets from time to time, but the strangest probably is that of the Montgomeryshire Yeomanry, now in camp in Garth, Breconshire. It is a rabbit, found recently by the regimental postman in a letter box he was clearing. Attached to its neck was a label, on which were a halfpenny stamp and the address of a gentleman in Wrexham, Denbighshire. The rabbit is being made much of by the regiment.

## Wellington's Favorite Charger.

Copenhagen, the duke of Wellington's favorite charger, is buried in a paddock at Stratfieldsey, Hampshire. The interment took place with military honors. The inscription on the stone placed over the grave reads: "Here lies Copenhagen, the Charger ridden by the Duke of Wellington the entire day at the Battle of Waterloo. Born 1808. Died 1836. 'God's humbler instrument, though meaner clay, should share the glory of that glorious day.'

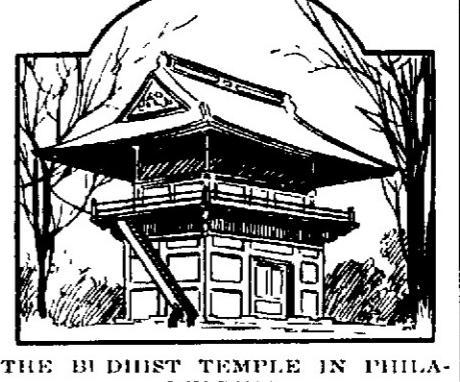

## A TEMPLE OF BUDDHA

ONE RECENTLY TRANSPORTED FROM JAPAN.

Interesting Oriental Place of Worship Said to Be the Only One in America—Has Been Placed in Philadelphia Park.

Philadelphia.—In this free land the pious or the superstitious may worship anything or nothing without causing comment. But we have not yet grown accustomed to the worship of Buddha, and the sight of Japanese appealing to the gods of their island home is one to cause a national craning of necks. The shrine that is the mecca for pious orientals is a temple recently set up by Japanese workmen in a shady corner of Fairmount park, Philadelphia. It was never intended as a place of worship, but was set up merely as a curiosity for American visitors to the park. Just as pious Americans in a foreign land, however, would avail themselves of the privilege of praying and meditating in Christian church, so Japs who live in Philadelphia or who go there on foreign ships seek the favor of their own gods in the quaint retreat just erected in Fairmount park.

The temple is said to be the only one outside of Japan. The Japs are indebted to John H. Converse and Samuel M. Vauclain for the privilege of worshipping Buddha in a foreign land. Once within the sacred portals Buddhists might imagine themselves back in the land of the lotus. Wide-eyed and gentle visaged goddesses await the coming of the believer, wonderfully carved symbols adorn the altars, mother of pearl incense bowls are at hand for the faithful, and Buddhist deities in various poses invite a continuance of the homage to which they were accustomed in the land of their origin. It is very interesting, very oriental and ancient enough to satisfy the most exacting lover of the antique. The temple was built more than 300 years ago at the village of Furimachi, province of Hadachi, Japan, by Lord Satake Globu-no-Tayu, of the noble Satake family, in memory of his father, and for the peaceful rest of his departed soul. It is two stories high and resembles an Indian pagoda in its architecture. There is an out-

THE BUDDHIST TEMPLE IN PHILADELPHIA.

side balcony on the second story encircling the structure, which is 45 feet high, 30 feet wide and 16 feet in depth. Its roof is tiled, as are all Buddhist temples, in distinction from Shinto temples, which are always straw thatched. The chrysanthemum, which is the Japanese imperial crest, is seen prominently upon the roof. It was allowed to be put there when the imperial tablet was conferred upon the Temple Scion. The two Deva kings, Brahma and Indra, stand on either side of the gate as guards of the temple. Fantastic and fabulous beasts carved out of wood project from every beam and support, corresponding to the gargoyles of Christian ecclesiastical architecture. The old bronze bell, which hangs on the balcony, was cast 450 years ago, and was used to summon the devout to prayer.

In the interior of the second floor are the shrines and religious treasures. The shrine of the Goddess of Mercy stands in the center, guarded on each side by two sacred dogs which were carved 600 years ago. Hung about are the curious cymbals, gongs, bells and drums which are used in the religious ceremonies. On the wall hangs a picture of the Buddhist paradise, painted on silk. Eternal Buddha is seen in one corner. The mural paintings are by the best artists of the time, and the design is different in each panel.

Among the regular visitors to the temple are members of the Japanese colony at the University of Pennsylvania. One student, a devout worshipper of Buddha, is almost a daily visitor to the shrine in the park. He is always alone, and is very careful to see that no mocking freshman or sophomore follows him to the scene of his devotion. Only the flesh and blood guardians of the temple and Brahma, the fierce-looking image who eternally scowls at the visitors, see the little student burn incense to the gods of his homeland.

## Chain-Making Machine.

Lelong, a Belgian inventor, has devised what is said to be the first successful apparatus with which, by the use of but one furnace and one machine, a continuous chain may be made and completely finished. The iron is fed into the machine in the shape of straight rods, and comes out a complete chain. Chains of any size may thus be made, from the smallest "tackles" up to huge chains used in the navy.

Paris Exports Record Broken. Consul General Mason, at Paris, has completed the records for the fiscal year. He says the total exports from Paris to the United States were \$52,037,685, showing an increase of 27 percent, and breaking the record.

## HIGH POST FOR LABOR MAN

Head of Railway Conductors Is Made a Member of Interstate Commerce Commission.

Oyster Bay, N. Y.—President Roosevelt has appointed E. E. Clark, of Cedar Rapids, Ia., grand chief of the Order of American Railway Conductors, a member of the Interstate commerce commission. The new appointee fills one of the two new commissioners provided for the railroad rate law passed by Congress during the last session.

Mr. Clark has shown great ability in the handling of labor questions, both in his position as head of the railway conductors and as a member of the anthracite coal strike commission. He was highly commended to

E. E. CLARK. (Well-Known Labor Leader Who Has Been Appointed to Interstate Commerce Board.)

the president by his associates. He is cordially endorsed also by the senators and representatives from Iowa, and by several of the most influential labor organizations.

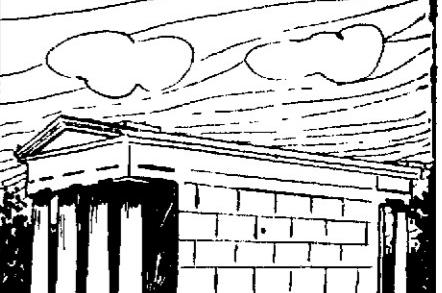

Mr. Clark has been at the head of the Railway Conductors' brotherhood for many years. The president believes that he has the confidence of the labor element of the country as completely as any other man.

Mr. Clark was born on February 18, 1856, within the sound of the locomotive whistles of old Erie, in the quiet village of Lima, in Livingston county, N. Y. His father died when he was but six years old, but Clark's will and energy were early manifest. He entered and graduated from the Genesee Wesleyan seminary at Lima, at that time an institution of wide reputation. In 1874 his mother, accompanied by her four children, went west and located in Austin, Minn. While there Clark obtained employment as brakeman on a western railroad and from then until 1889 went through the usual trials and hardships incident to the life of a brakeman, freight and passenger conductor, when he resigned active railroading to enter the service of the Order of Railway Conductors of America. He was elected to the position of grand senior conductor by the grand division, which met at Denver. One year afterwards he became grand chief conductor, which position he has now held for 16 years to the great dignity and credit of the order and himself.

## RESTING PLACE FOR HANNA

Handsome Mausoleum at Cleveland, O., Built at Cost of \$100,000, Is Almost Completed.

Cleveland, O.—The mausoleum in Lake View cemetery, Cleveland, which is to be the last resting place of the remains of Marcus A. Hanna, will be entirely completed within the next few weeks at most. The exterior work is already about done, and the grounds have been graded and sown with grass seed. The body of the late

MAUSOLEUM OF THE LATE SENATOR HANNA.

senator, now in the vault of the Wade Memorial chapel will be removed to the Hanna mausoleum during the present summer.

The Hanna mausoleum is built of white marble, and cost \$100,000. It stands upon an imposing eminence perhaps a quarter of a mile from the entrance to the cemetery. Only a few hundred feet away upon another eminence is the memorial to President Garfield, and nearby is the John D. Rockefeller monolith. The Wade Memorial is but a short distance from the new mausoleum. It is conceded to be one of the most beautiful memorial chapels on the American continent.

**Oxone a New Air Product.**  
Oxone is not ozone. It is a new product of an electro-chemical company of New York, and is a specially prepared fused form of sodium peroxide having the peculiar property of emitting free oxygen when it comes in contact with carbon dioxide charged with moisture. It is of bluish gray color, and is cast in small blocks which are packed in airtight cans, and in this form is easily transported. It is believed that by the use of oxone the air in submarine boats may be kept fresh for many hours at a time.

**WEATHER FORECAST:**

Continued showers tonight and Wednesday.

# THE EVENING NEWS.

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

**TEMPERATURE TODAY:**

At 3 p. m., 87 degrees.

NUMBER 118

## STREAMS ARE STILL ON RAGE ---- MUCH DAMAGE

**Santa Fe in Trouble.**

Pauls Valley, I. T., Aug. 7.—One of the heaviest rains ever witnessed in this section fell here last night. It fell in torrents almost all night and all streams are greatly swollen.

The Santa Fe track is out between here and Puroell and also above Purcell.

The Santa Fe reservoir at Byars, about eighteen miles east of here which covered about 170 acres broke loose this morning and inundated the country adjacent. About a mile and a half of the Santa Fe track this side of Byars is gone, and it will probably be a week before trains are running on that branch.

The breaking of the Byars reservoir resulted in the loss of lots of stock, but so far no human life has been reported lost.

**Fighting to Save Bridge.**

Denison, Texas, Aug. 7.—The approaches to the Frisco bridge and a section of the bridge over the South Canadian river in Indian Territory, were washed away this morning, causing a suspension of traffic. Passenger trains are being detoured over the Missouri, Kansas and Texas.

A mighty battle is being waged by the Katy to save its South Canadian river bridge. Today 30,000 sacks were sent to the bridge, where they are being filled and used to protect the bridge approaches. The Katy has spent thousands of dollars in rebuilding the South Canadian river bridge and it was result.

supposed to be past the danger line.

On the Shawnee division of the Katy many feet of track at Tyrola, where the road crosses the South Canadian, are washed away.

The Rock Island is also reported in trouble at its South Canadian bridge.

**Washouts Delay Traffic.**

Oklahoma City, Okla., Aug. 7.—Traffic on the Rock Island between here and South McAlester and the Shawnee division of the Missouri, Kansas and Texas is tied up on account of washouts due to the heavy rains. Many streams are overflowing bottom lands and much damage has been done to crops.

**Dispatch From Ardmore.**

Ardmore, I. T., Aug. 7.—Terrific rainstorms are reported today from several sections of the Chickasaw nations, and in some places the precipitation almost equaled a cloudburst.

Along the line of the Santa Fe, north of here, the heavy rains of the past few days have wrought considerable damage to railroad property. Trains on the Santa Fe today operated with difficulty owing to reported washouts and traffic is being delayed. A large force of workmen are repairing the breaks and it is stated that through traffic will be resumed within the next twelve hours.

It is reported that the Frisco bridge near Francis is gone. In the lowlands damage to crops will

## OLIVER PREACHED GRAND SERMON TUESDAY NIGHT

**To Suppress Contraband Beverages.**

Vinita, I. T., Aug. 6.—The United States attorney's office at this place has determined to get after the uno, ino, longhorn and such other malt drinks in a vigorous manner, and to suppress, if possible, the traffic of such drinks in the Northern district, and accordingly the following notice has been given the public:

**To the Public:**

"The following is a copy of a letter received by me from the attorney general of the United States with reference to the enforcement of the liquor law in the Northern district:

"The department of justice has received a number of communications, including copies of newspapers published within Indian Territory, bearing upon the subject of the illegal liquor traffic in the territory. In the Sapulpa Light, July 20, 1906, a copy of which was received this morning, it is stated that one of the largest firms in Texas has located a branch at Sapulpa this week. This will be the headquarters or distributing point for all towns around, including Okmulgee on the south, Tulsa to Vinita east, and west into Oklahoma. The goods handled will be the famous longhorn, a drink that is said to eclipse the efforts of uno and ino. The article further states Ardmore, Muskogee and South McAlester are three other distributing points in the territory.

"People made fun of Noah when he responded to the command of his God to build an ark. Perhaps his family was snubbed by the social leaders of his neighborhood. People called him an old stogy, and mocked and scoffed at him. But Noah said, 'God will send plenty of water.' He will always flood the soul when his children obey his commands. You will not get a blessing while you are playing the hypocrit." Mr. Oliver quit his line of thought just here long enough to condemn hypocrisy in the local church.

He said that those who drive to Byrd's mill or any other mill on Sunday ought to be turned out of the churches. "There are hypocrites right here in Ada who are dragging men and women to hell."

Mr. Oliver asked, "Are you fulfilling the command God has made of you?"

"Just as the people were indifferent and reveling in sin while Noah was building the ark, people are today turning an indifferent ear to the warning that God will again destroy this old world and all with it who do not take heed now and make their eternity secure in the ark of the blood of Jesus Christ."

Mr. Oliver attacked the theory of the Universalists, who say that God is too good to punish his people. "The same devil who told Eve to eat of the forbidden fruit, that no harm would come to her, tell the Universalists that God is too good to punish those who disobey Him."

Mr. Oliver's description of the filling of the ark with birds, beast and man; the dastardly work of the uncompromising waters and the awful end that befell all living creatures was eloquent, graphic and picturesque. He painted a life like picture, which will always be remembered by those who heard him.

Mr. Oliver pleaded that the families of Ada let God shut them in the ark of salvation just as He shut Noah and his family in the literal ark. "It means eternal security. I pray God that we

shall use every means in our power to enforce the law and carry out the instructions of the attorney general.

"In addition permit me to say that I shall use every means in my power to enforce the law and carry out the instructions of the attorney general.

"WADE S. STANFIELD,  
United States Attorney."

Announcements.

Mr. Oliver will preach a farewell sermon to the Christian people Sunday morning at 11 o'clock on the "Baptism of the Holy Spirit."

On Sunday afternoon he will preach to me only. Subject, "Marriage."

## TAMMANY WILL ENDORSE

## WILLIAM JENNINGS BRYAN

New York, Aug. 7.—To indorse William J. Bryan for the Democratic Presidential nomination in 1908, Charles F. Murphy will issue a call for a special meeting of the Tammany general committee, to be held next week. Announcement of this intention on the part of the Tammany leader convinced Democrats that Mr. Murphy, contrary to a belief which existed in some quarters, is heart and soul in the Bryan movement.

His intimate friends express no surprise, because they have known all along that he favors the nomination of Mr. Bryan in preference to all others. Mr. Murphy also accepted an invitation today to serve as a member of the executive committee in charge of the arrangements for the Bryan reception.

Friends of Mr. Bryan decided today to establish permanent Bryan Headquarters in New York City, and to begin immediately systematically to boom the Nebraskan for presidential honors. It is likely that the rooms now used by the Bryan Reception committee in the Victoria Hotel will be retained for the purpose. With plenty of funds in sight to begin work on a broad scale, the new committee will begin to send out literature as soon as the Bryan reception is over, and their

campaign will continue right up to the calling of the National convention two years hence.

**Vardaman Ferninst the Negro.**

New Orleans, Aug. 8.—An appeal by Governor Vardaman of Mississippi to white voters to select state legislators who will vote to stop granting appropriations for the education of negro children, is reported from Brookhaven, Miss., where the governor visited a farmer's meeting. Of the negro question in Washington, D. C., Governor Vardaman said there is need of a "Jim Crow" law in reserving certain seats for negroes in that city. He said that southern congressmen do not propose the enactment of such a law because they are afraid of criticism. He declared that if chosen to represent Mississippi in the senate he would offer such a bill at least once a year.

He said that he would rather be instrumental in securing the repeal of the fifteenth amendment than to wield the sceptre of King Edward the seventh of England.

geons. Phone 17. 97-17

He said that he would rather be instrumental in securing the repeal of the fifteenth amendment than to wield the sceptre of King Edward the seventh of England.

Friends of Mr. Bryan decided today to establish permanent Bryan Headquarters in New York City, and to begin immediately systematically to boom the Nebraskan for presidential honors. It is likely that the rooms now used by the Bryan Reception committee in the Victoria Hotel will be retained for the purpose. With plenty of funds in sight to begin work on a broad scale, the new committee will begin to send out literature as soon as the Bryan reception is over, and their

campaign will continue right up to the calling of the National convention two years hence.

16th District's Big

# DEMOCRATIC RALLY!

The Democracy of the 16th District will rally in Ada

## MONDAY, AUGUST 13

The leading orators and United States Senatorial candidates from Oklahoma will address the throng. Hon. Jack Beal of Dallas, Texas, the brilliant Texas Congressman, will be present. A large number of State and Congressional candidates will be the District's guests that day, and will be proud to meet the people. The Democrats of Ada will give a barbecue supper to all the visitors. Between the shoutings and oratory and the feasting there will be music by two of the leading brass bands of the Indian Territory.

The splendid tabernacle constructed by the citizens of Ada, where the exercises will occur, has comfortable seating capacity of nearly 3,000 people.

Monday will be the real opening of the county campaign. Scores upon scores of candidates and prospective candidates for county offices will be on hand, and vigilant. The presence of the Democracy of the 16th district is demanded.

All the Democrats and other good citizens who are seeking after the political truth, or who attach some value to the reliable news capacity of a paper are cordially invited, when in town, to visit the Ada Daily and Weekly News office and plant, situated on the corner of 12th and Broadway, just across from the big tabernacle.

## DO NOT FAIL TO ATTEND

# Ada Evening News

OTIS E. WEAVER, PUBLISHER  
M. D. STEINER, BUSINESS MGR.

Entered as second-class mail matter, March 26,  
1911, at the post office at Ada, Indian Territory  
under the Act of Congress, March 3, 1893.

Advertising rates on application.

Woe be unto the town knocker when it comes to running for an office in the new state. The press will not stand for a man to go to the constitutional convention who orders his stationery or other articles outside his home town. A man that will knock his home paper, merchant, or any kind of home enterprise cannot and must not be allowed to hold an office, for he may turn his back to us when he gets in. —Konawa Chief-Leader.

Prosperity is actually making eyes at Miss Ada. The city is on the verge of a prosperous leap that means the ranking of Ada among great Western cities. Keep your eyes open. Miss Ada was never destined to be poor, small nor weak. The News calls her the "Hub," and the hub she'll be. We predict the day when local items in the great metropolitan paper—the News—will read: "Mr. Blank, of Shawnee, was in town shopping today. Miss Jennie Singletree is visiting Miss Sal Wiggins on 42d street. Will Jones had a hand mangled at the cotton mills last night. Fire station No. 4 has installed a new hose wagon. A slight wreck on the K. C., L. & P. west of the city occurred last night. One of our newsboys was thrown from a street car on South Broadway this morning and sustained a broken wrist." This will give you a hint as to what we believe will come to pass.

## Gerrymanders Will Meet Again Friday.

South McAlester, Aug. 8.—The Gerrymandering Board has announced the approximate population of the various nations as follows:

Cherokee, 240,000.

Creek and Seminole, 185,000.

Choctaw and Chickasaw, 400,000.

Judge Gill states that the committeeman appointed to make the Cherokee census reports 240,000 and the postmasters' reports show 185,000. Owing to the large showing made in the Choctaw and Chickasaw nations, he says he will be forced to accept the 240,000 reports.

There will be another meeting on Aug. 10.

Judge Gill thinks an election proclamation will be issued not later than Sept. 1.

There must be sixty day's notice of elections.

One policy has been determined by the committee.

They will not split Townships.

All shapes in districts may result, but the townships will remain intact.

As soon as the districts are made, maps will be printed showing the townships in each district and those will be distributed broadcast over the territory.

## Sugg Sells.

A. R. Sugg has sold his furniture stock on West Main to the Ada Furniture & Coffin Co. and W. C. Duncan & Co. The stock will be divided and moved to the places above mentioned.

Frank Jones and sons, Frank, Boone and Harry left today for Valentine, Texas. They will spend a month there. The News will follow.

## Railroad Notes.

Ada can boast of the most conscientious milkman in the Territory. Tuesday morning he spent over an hour in the drenching rain driving the cows into the barn so that not a drop of water might get into the milk.

## Notice.

The public is hereby notified that I have never had any connection with Tom Holman, of Oakman, Indian Territory, in connection with a mercantile business there, with the exception that he was acting as trustee for me in the sale of said stock to secure the payment of a debt due from him to me. That he was never authorized and is not at present authorized to buy any goods whatsoever and bind me for the payment of same. Geo. A. Harrison. 100-tfw15-1t

## River Receding.

Those who went to the river this morning returned at two o'clock and report the river rapidly falling. A large gang of men are at work clearing away the rubbish and it is thought trains will be able to cross in 36 hours.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

Gov. Frantz Promises to Put the Lid on in Oklahoma.

Guthrie, Ok., Aug. 7.—Gov. Frank Frantz has decided to emulate Govs. Hoch, of Kansas, and Folk, of Missouri, in putting on a state "lid."

When recently a party of local temperance workers called on the Oklahoma Rough Rider executive, in reply to a query from Rev. C. C. Brannon, the preacher politician of Guthrie and a member of the Oklahoma Anti-Saloon League, the governor said that he would instruct the attorney general to

prosecute all persons violating the liquor laws if evidence of violation could be laid before him. It is complained by members of the Anti-Saloon League that in several counties, especially in Oklahoma City, municipal and county officials have refused to enforce the "lid" laws.

The attorneys for the Anti-Saloon League, during a recent conference here, made the statement that the governor is all powerful under the Oklahoma laws to enforce the "lid," and it was after this meeting that they called on the governor and asked him to aid them, and he promised them that he would. The law allows the governor to send the attorney general and his assistants, and, if necessary, to employ additional counsel to conduct prosecutions.

## Railroad Notes.

In the emergency created by flood damage to the Atoka-Oklahoma line of the M., K. & T., the Oklahoma Central has very kindly furnished 150 laborers and much needed material for speedy repair work on the line first mentioned.

Curiously enough, with the wholesale havoc wrought by the recent floods upon railroad tracks in this vicinity, not a vestige of damage has been discovered on the Oklahoma Central's line. Even on Sandy and Boggy creeks, which have been particularly rampant, no damage was found. This speaks volumes, both for the excellent engineering and the superior construction of that road.

Tuesday afternoon the M., K. & T.'s bridge on Buck creek, near Stonewall, succumbed to the raging waters. With all timbers and rails intact it was observed by a farmer floating serenely down the swollen stream.

The Oklahoma Central's new townsite, Walling, consisting of 310 acres one and a half miles south of McGee, has been opened and lots are now on sale. The sale is under the management of George Northrup, an efficient townsite man of much experience.

M. L. Walsh will furnish you with the White Swan brand. Phone 17. 95-tf

# TO VISIT NEIGHBORS

## SECRETARY ROOT OFF FOR PAN-AMERICAN CONFERENCE.

**Significance of Official's Mission to South America—Will Attempt to Dispel Erroneous Beliefs Regarding Our Attitude.**

Washington.—An event of great importance to both South America and the United States is the trip which Secretary of State Root is making at present to the third pan-American conference at Rio de Janeiro and to the other principal South American cities.

The purpose of the trip, it is frankly stated, is to encourage better relations with our South American neighbors. Secretary Root will make a number of speeches and will talk personally with all the most distinguished statesmen of the south American countries. He will try to remove the popular idea from the Latin-American mind that the United States is armed with a big stick and intends eventually to bring the entire western hemisphere under its control.

In place of these erroneous beliefs Secretary Root will tell them that we will protect them from old world invasion and will try to be friendly and trade in peace with them. We will insist, he will tell them, that they must pay their debts and fight off plagues.

Root goes not officially, but as a distinguished visitor to the conference, which meets at Rio de Janeiro about the 23d of July. The president's summer palace at Petropolis, across the bay, will be his residence.

From Rio, at the conclusion of the conference the Charleston will convey Secretary Root to Montevideo and Buenos Ayres, around the Horn to Valparaiso, Bueno Ventura and up to Panama. He will inspect the canal and return home in October.

The official representatives of the United States to the Pan-American conference will be William L. Buchanan, chairman; ex-Gov H. A. Montague, of Virginia; Dr. L. S. Rowe, of the

## TO STUDY YANKEE TACTICS

Lieut. Brugere of France Will Attend United States College Through Courtesy of Roosevelt.

Kansas City.—Lieut. Jean Batiste Brugere, son of Gen. Brugere, chief of staff of the French army, is the guest of officers at Fort Leavenworth.

The presence of the young Frenchman in this country is a recognition by President Roosevelt of the courtesies paid Gen. Chaffee, Gen. Bell and Gen. Crozier by Gen. Brugere during the visit of the American officers to France last year.

Upon the return of the American commission, after spending several weeks in France studying French mil-

LIEUT JEAN BATISTE BRUGERE (French Army Officer Who Will Study American Military Methods)

tary methods, Gen. Bell made it known to the president that Gen. Brugere was exceedingly anxious that his son should have a course of study at the United States staff college. Some months ago President Roosevelt extended an invitation to the young man to enter the school at Fort Leavenworth, and Lieut. Brugere arrived in New York about the middle of March. He visited President Roosevelt and Secretary Taft before coming west.

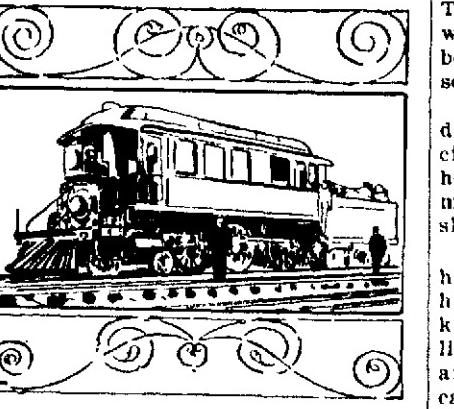

Lieut. Brugere, who is 22 years old, comes from a long line of French warriors. He holds a commission in the Chasseurs d'Afrique, now stationed at Tlemcen, Algeria. He was a student at the Ecole Militaire at St. Cyr for two years and at Saumur a year, after which he received a commission in the regiment to which he belongs at the present time. Until the opening of the staff college next fall Lieut. Brugere will devote himself to the American language and accustom himself to American ways.

## LOCOMOTIVE IN POLITICS.

Equipped with Private Observatory "Vermont Political Machine" Has Interesting History.

New York—One of the best equipped of the few private observation locomotives owned by railroad officials in this country is the St. Lawrence, the property of the Central Vermont rail-

way. This locomotive, which has an interesting history, was originally owned by Col E C Smith, former president

THE VERMONT POLITICAL MACHINE.

of the Central Vermont road and governor of Vermont, and was used by Gov. Smith as the pilot of his private car, Mansfield.

By some of those who were active in Vermont politics while Mr. Smith was chief executive of the Green Mountain state the St. Lawrence was known as "the Vermont political machine," a name which was developed through the frequent use of the locomotive on political errands in state campaigns.

When Gov. Smith retired from the presidency of the road, the St. Lawrence became the property of the railway company and is now used by General Manager Jones and other officials.

The locomotive was constructed with a view to the peculiar uses to which it might be and is now put, such as conveying the chief officials of the road on their tours of inspection over the line, as well as for hauling the private cars on trips of business or pleasure. It was built in Schenectady, 14 years ago. It is of the eight-wheel type, with the observation car in front and above the boiler. The observation saloon is handsomely furnished with carpet and rattan chairs.

"Spotless Town" Is Found. Pickford township, in northern Michigan, a Chippewa county subdivision with a population of 1,500 and an area of 113 square miles, possesses a unique distinction. Since its organization in 1877 it has had only one criminal case. The first liquor license is yet to be granted and paupers are unknown.

**Leper Colony in Philippines.**

The first permanent leper colony in the Philippines has been established on Cullon Island, in the Philippines, and 200 lepers have been removed there from Cobu. All cases discovered in the future will be sent there. Four Catholic nuns have volunteered their services and are now en route to the settlement to devote their lives to nursing the afflicted.

**"Spotless Town" Is Found.**

# MAGNIFICENT EGYPTIAN SUN TEMPLE BUILT BY RAMSES II.

**Historic Ruins Have Been Explored by a Party of Scientists and Interesting Facts of Ancients Brought to Light.**

Chicago.—Egypt's monumental temples, which have stood since the time of the Pharaohs with their greatest secrets hidden in dark and partially explored caverns, have been opened under the light of modern science and their mysteries dissected. New details on the religious and social customs of the ancients and additional facts concerning the kings who ruled over the Nile country long before the time of the Ptolemys have been unearthed and recorded through the efforts of Prof. James H. Breasted, of the University of Chicago, who has

spent many years in Egypt as a photographer, and a force of 20 skilled workmen. Additional laborers, sometimes in large numbers, were employed for local work in various places.

The great hall of Abu-Simbel, hewn into the side of the mountain by the subjects of Ramses II, and called the "sun temple," occupied seven weeks of the explorers' time. As in the case of the other temples, the walls were marked off into rectangles and photographed from scaffolding. Prof. Breasted afterward marking into the

just returned after a nine-months' visit to the land of the pyramids as director of that institution's Egyptian Exploration expedition.

The magnificent "sun temple" of Abu-Simbel, the most striking of the many monuments left by Ramses II, and the temple of Amada, both of which are described as of "surpassing beauty," were among the structures explored by Prof. Breasted and his party. These temples, which are situated along the explored region for a distance of 200 miles, were microscopically examined. The party consisted of Prof. Breasted, the director, Victor Persons, the engineer, A. Koch, of Berlin, who has been connected with sev-

pices such minute scratches as had escaped the camera.

Abu-Simbel presents a most beautiful sight, according to Prof. Breasted, extending 180 feet into the mountain. The "great hall," the first of four large chambers, is supported by eight huge statues, each of which is a representation of King Azz Stras. It is 150 feet broad and 40 feet high. Near the door is a statue of the sun god, Re or Phre, to whom the temple is dedicated. Outside the entrance are four colossal statues of Ramses II. Each one of these is 72 feet high. One of the statues is minus the upper part of the body and the others have been chipped off considerably.

## HIDEOUS ALASKAN TOMB.

Resting Place of Chief Is Embellished with Grotesque Caricatures of Sea Monsters.

New York—All kinds of strange, hideous things are coming to civilization from the interior of Alaska. One of the latest is a photograph of the tomb of an Alaskan chief. Really it looks as if it were from the interior of Tartary or the mountains of Tibet, where the monstrous is considered beautiful and the more grotesque and scary a picture is the more it is prized.

The illustration herewith shows the difference between the uncivilized and civilized ancients. Imagine a Roman hero put away in a tomb with a nightmare face engraved on the marble slab.

The chap who died in Alaska to join his forefathers was a great chief in his day, and his wonderful feats in killing sharks, polar bears, mountain lions, saying nothing of his enemies, are supposed to be embodied in the caricatures on his tomb, which, by the way, is not made of slabs of marble, but of driftwood which the ocean had dashed against the cliffs of Alaska for a century or two before it came ashore the sea pickling the wood with its brine and preserving it for all time.

AN ALASKAN NIGHTMARE TOMB.

According to experts the figure on the tomb may represent the head of a shark, the fiercest of sea monsters, which the great chief once killed with a single stroke of his mighty club. The superstition is that should any body disinter the remains of this honored warrior the ghostly legions guarding him would be sure to be revenged and some night in a terrible storm would swoop down on the offender, blow him stiff and carry him away on a cloud to be dropped into the depths of the ocean.

**Dewey's Capture.**

The gunboats Albia, Mindanao and Malibon, which were captured by Admiral Dewey when he destroyed the Spanish fleet, have been sold as junk for \$6,600 at Olongapo, P. I. The boats participated in the battle of Manila bay.

several imperial German research expeditions as a photographer, and a force of 20 skilled workmen. Additional laborers, sometimes in large numbers, were employed for local work in various places.

The great hall of Abu-Simbel, hewn into the side of the mountain by the subjects of Ramses II, and called the "sun temple," occupied seven weeks of the explorers' time. As in the case of the other temples, the walls were marked off into rectangles and photographed from scaffolding. Prof. Breasted afterward marking into the

# A TEMPLE OF BUDDHA

ONE RECENTLY TRANSPORTED FROM JAPAN.

**Interesting Oriental Place of Worship Said to Be the Only One in America—Has Been Placed in Philadelphia Park.**

Philadelphia.—In this free land the pious or the superstitious may worship anything or nothing without causing comment. But we have not yet grown accustomed to the worship of Buddha, and the sight of Japanese appealing to the gods of their island home is one to cause a national craning of necks. The shrine that is the mecca for pious orientals is a temple recently set up by Japanese workmen in a shady corner of Fairmount park, Philadelphia. It was never intended as a place of worship, but was set up merely as a curiosity for American visitors to the park. Just as pious Americans in a foreign land, however, would avail themselves of the privilege of praying and meditating in a Christian church, so Japs who live in Philadelphia or who go there on foreign ships, seek the favor of their own gods in the quaint retreat just erected in Fairmount park.

The temple is said to be the only one outside of Japan. The Japs are indebted to John H. Converse and Samuel M. Vaulain for the privilege of worshipping Buddha in a foreign land. Once within the sacred portals Buddhists might imagine themselves back in the land of the lotus. Wide-eyed and gentle visaged goddesses await the coming of the believer, wonderfully carved symbols adorn the altars, mother of pearl incense bowls are at hand for the faithful, and Buddhist deities in various poses invite a continuance of the homage to which they were accustomed in the land of their origin. It is very interesting, very oriental and ancient enough to satisfy the most exacting lover of the antique. The temple was built more than 300 years ago at the village of Furimachi, province of Hadachii, Japan, by Lord Satake Globu-no-Tayu, of the noble Satake family, in memory of his father, and for the peaceful rest of his departed soul. It is two stories high and resembles an Indian pagoda in its architecture. There is an out-

THE BUDDHIST TEMPLE IN PHILADELPHIA.

side balcony on the second story encircling the structure, which is 45 feet high, 30 feet wide and 16 feet in depth. Its roof is tiled, as are all Buddhist temples, in distinction from Shinto temples, which are always straw thatched. The chrysanthemum, which is the Japanese imperial crest, is seen prominently upon the roof. It was allowed to be put there when the imperial tablet was conferred upon the Temple Scionji. The two Deva kings, Brahma and Indra, stand on either side of the gate as guards of the temple. Fantastic and fabulous beasts carved out of wood project from every beam and support, corresponding to the gargoyles of Christian ecclesiastical architecture. The old bronze bell, which hangs on the balcony was cast 450 years ago, and was used to summon the devout to prayer.

In the interior of the second floor are the shrines and religious treasures. The shrine of the Goddess of Mercy stands in the center, guarded on each side by two sacred dogs which were carved 600 years ago. Hung about are the curious cymbals, gongs, bells and drums which are used in the religious ceremonies. On the wall hangs a picture of the Buddhist paradise, painted on silk. Eternal Buddha is seen in one corner. The mural paintings are by the best artists of the time, and the design is different in each panel.

Among the regular visitors to the temple are members of the Japanese colony at the University of Pennsylvania. One student, a devout worshiper of Buddha, is almost a daily visitor to the shrine in the park. He is always alone, and is very careful to see that no mocking freshman or sophomore follows him to the scene of his devotion. Only the flesh and blood guardians of the temple and Brahma, the fierce-looking image who eternally scowls at the visitors, see the little student burn incense to the gods of his homeland.

**Chain-Making Machine.**

Lelong, a Belgian inventor, has devised what is said to be the first successful apparatus with which, by the use of but one furnace and one machine, a continuous chain may be made and completely finished. The iron is fed into the machine in the shape of straight rods, and comes out a complete chain. Chains of any size may thus be made, from the smallest "tackles" up to huge chains used in the navy.

**Paris Exports Record Broken.**

Consul General Mason, at Paris, has completed the records for the fiscal year. He says the total exports from Paris to the United States were \$62,037,685, showing an increase of 27 percent, and breaking the record.

# HIGH POST FOR LABOR MAN

Head of Railway Conductors Is Made a Member of Interstate Commerce Commission.

Oyster Bay, N. Y.—President Roosevelt has appointed E. E. Clark, of Cedar Rapids, Ia., grand chief of the Order of American Railway Conductors, a member of the interstate commerce commission. The new appointee fills one of the two new commissionerships provided by the railroad rate law passed by congress during the last session.

Mr. Clark has shown great ability in the handling of labor questions, both in his position as head of the railway conductors and as a member of the anthracite coal strike commission. He was highly commended to

E. E. CLARK.  
(Well-Known Labor Leader Who Has Been Appointed to Interstate Commerce Board.)

the president by his associates. He is cordially endorsed also by the senators and representatives from Iowa, and by several of the most influential labor organizations.

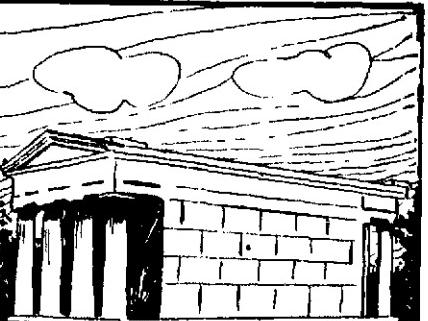

Mr. Clark has been at the head of the Railway Conductors' brotherhood for many years. The president believes that he has the confidence of the labor element of the country as completely as any other man.

Mr. Clark was born on February 18, 1856, within the sound of the locomotive whistles of old Erie, in the quiet village of Lima, in Livingston county, N. Y. His father died when the boy was but six years old, but Clark's will and energy were early manifest. He entered and graduated from the Genesee Wesleyan seminary at Lima, at that time an institution of wide reputation. In 1874 his mother, accompanied by her four children, went west and located in Austin, Minn. While there Clark obtained employment as brakeman on a western railroad and from then until 1889 went through the usual trials and hardships incident to the life of a brakeman, freight and passenger conductor, when he resigned active railroading to enter the service of the Order of Railway Conductors of America. He was elected to the position of grand senior conductor by the grand division, which met at Denver. One year afterwards he became grand chief conductor, which position he has now held for 16 years to the great dignity and credit of the order and himself.

## RESTING PLACE FOR HANNA

**Handsome Mausoleum at Cleveland, O., Built at Cost of \$100,000, Is Almost Completed.**

Cleveland, O.—The mausoleum in Lake View cemetery, Cleveland, which is to be the last resting place of the remains of Marcus A. Hanna, will be entirely completed within the next few weeks at most. The exterior work is already about done, and the grounds have been graded and sown with grass seed. The body of the late

MAUSOLEUM OF THE LATE SENATOR HANNA.

senator, now in the vault of the Wade Memorial chapel will be removed to the Hanna mausoleum during the present summer.

The Hanna mausoleum is built of white marble, and cost \$100,000. It stands upon an imposing eminence perhaps a quarter of a mile from the entrance to the cemetery. Only a few hundred feet away upon another eminence is the memorial to President Garfield, and nearby is the John D. Rockefeller monolith. The Wade Memorial is but a short distance from the new mausoleum. It is conceded to be one of the most beautiful memorial chapels on the American continent.

## Oxone a New Air Product.

Oxone is not ozone. It is a new product of an electro-chemical company of New York, and is a specially prepared fused form of sodium peroxide having the peculiar property of emitting free oxygen when it comes in contact with carbon dioxide charged with moisture. It is of bluish gray color, and is cast in small blocks which are packed in airtight cans, and in this form is easily transported. It is believed that by the use of oxone the air in submarine boats may be kept fresh for many hours at a time.
